

Your situation at the end of confinement

Hello,

Following the government's announcement of the confinement linked to the fight against Covid-19, you informed your residence hall of Crous de Toulouse - Occitanie of your final departure from the accommodation you had been assigned.

However, the departure inventory could not be carried out and therefore your deposit is for the moment kept by Crous.

As a result you're left with **two options**:

- you may either come back at the end of the confinement period, when travel restrictions are lifted, to carry out this inventory, in a contradictory way in the presence of a representative of Crous. You have 30 days from the end of confinement of the territory where you reside to carry it out.

- or you are unable to return and you can fill out and return the certificate attached to this email. This certificate constitutes authorization on your part to access the accommodation and carry out the final inventory. If damage is noted, the corresponding amount will be retained on your security deposit.

Please note: your response is expected as soon as possible upon receipt of this email and no later than May 17th. Download the [list of contacts by residence](#)

After this deadline and without response from you, all your remaining personal effects will be disposed of and the Crous will proceed with the final inventory. If damage is noted, the corresponding amount will be retained on your security deposit.

Kind regards

Le Crous de Toulouse - Occitanie
